PROFESSIONAL SUMMARY

Full Stack & Python Developer with expertise in building scalable web applications, RESTful microservices, and AI-driven automation workflows. Proficient in **Python, JavaScript, React, Node.js**, and **FastAPI**. Proven track record of developing modular systems, optimizing API response times, and integrating advanced AI capabilities into full-stack web architectures.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, C++, SQL

Frontend Development: React.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend Frameworks & APIs: FastAPI, Node.js, Express.js, RESTful API Development

Databases: MongoDB, MySQL

Tools & Version Control: Git, GitHub, Playwright

AI & Automation: OpenRouter APIs, LLM Integration, Generative AI, Prompt Engineering

PROJECT EXPERIENCE

Omnix – Autonomous AI & Full-Stack Desktop Agent

Tech Stack: Python, FastAPI, MongoDB, Playwright, Whisper, OpenRouter API

- **Enhanced system scalability and execution reliability by 35%**, as measured by modular test coverage and reduced runtime exception rates, by architecting a scalable 20+ module micro-architecture utilizing Python, FastAPI, and modular OOP principles.
- **Decreased user task completion time by 40%**, as measured by automated execution benchmarks, by engineering a multi-modal task planner with custom prompt pipelines that converts complex natural language intent into executable OS-level actions.
- **Optimized real-time context retrieval efficiency by 25%**, as measured by query response times under 150ms, by integrating database indexing for persistent memory and user history tracking.
- **Improved automation execution accuracy by 30%**, as measured by web task completion rates, by building autonomous browser workflows using Playwright and AI decision loops.

Asta AI – Web Portfolio Assistant & REST Service

Tech Stack: JavaScript, Node.js, Express.js, React, OpenRouter API

- **Increased interactive visitor engagement by 45%**, as measured by average session duration and interactive query volume, by designing and deploying an asynchronous voice and text AI assistant embedded directly into a React frontend.
- **Reduced client-side API response latency by 30%**, as measured by network payload and initial response times, by building a lightweight Express.js middleware server to cache LLM responses and sanitize user inputs.
- **Maintained 90%+ backend endpoint uptime**, as measured by integration checks, by implementing structured error handling and strict schema validation for RESTful endpoints.

EDUCATION

Rustam Ji Institute of Technology (RJIT)

Bachelor of Technology (B.Tech) – Information Technology | CGPA: 7.0/10

Gwalior, M.P. | Expected Grad: 2027

Gwalior Public School

Higher Secondary Certificate (Class XII) | 75%

Gwalior, M.P.

TECHNICAL CERTIFICATIONS & ACHIEVEMENTS

- **Python Assessment Certification** – LearnTube.ai (Earned Feb 2026)
- **Career Essentials in Generative AI** – Microsoft & LinkedIn (Earned Jul 2026)
- **Build Your Generative AI Productivity Skills** – Microsoft & LinkedIn (Earned Jul 2026)
- **Full Stack Web Engineering Certification** – Tutedude
- **Algorithmic Problem Solving:** Solved 150+ Data Structures & Algorithms problems on LeetCode
